

Denly's

Old World Pizza
Since 1933

Open 7 Days a Week until 12 AM

The town of Weymouth is just south of Quincy, outside Boston. It's a town, like all others, that has seen its share of change over the years. Were it not for certain fixed landmarks the traditional character of New England towns would be forever lost.

Denly's restaurant is a landmark on the South Shore. Established in 1933, Denly's has lasted decades without succumbing to the ravishes of time. When prohibition was repealed, the restaurant was the first to obtain its' liquor license.

The same Caruso family has owned and operated Denly's restaurant for four generations. It is truly an authentic Italian Pizzeria serving Brick Oven Thin Crust Pizza

The old-fashioned standing bar is a sight to see, and being served at it may just revive some long repressed memories of happier times. The wooden dining booths, too, bear the imprint of many joyful family gatherings. The pleasant glow of lights will help you identify with our fun-loving American spirit. The place has all the charm we wish to preserve in American popular culture.

Caruso Brothers

Home of the 22" Monstah Pizza
Full Liquor with Over
50 Different Kinds of Beer

We at OnTray Magazine suggest eating at Denly's which is located a baseball fling outside Jackson Square, East Weymouth. The stucco building stands out on Lake Street, and right across the street from ample free parking.

We wish there were a feast with a bandstand and parade centered at the corner of the street to mark the restaurants uniqueness. Treat yourself, your family, and your friends to all that Denly's restaurant offers. Veal, Chicken and Seafood. The gourmet Antipasto is amazing! Pastas include: Bowties, Penne, Spagitini, Gnocci, Stuffed Shells, Manicotti, home made Ricotta & Spinach Agnolotti. Ravioli's include Porcini, Butternut Squash, Portabella, Shrimp & Roasted Garlic, 3 Cheese. Sauces include House Made Pesto, Alfredo Pomodori & Marinara and so much more

There's no limit to what a fourth generation restaurant can do. So give it a try.
